### **DETAILED ACTION**

Applicant's arguments filed 10/08/03 have been fully considered but they are not persuasive. See argument below.

- I. Rejection of claims under 35 USC 103(a) over Mauler-Machnik and Simons in view of Mauler-Machnik will be maintained for reason on record and reason as follows. Applicant argues that USPN '136 does not teach or suggest "treating a plant or its propagation material with a fungicide which has "no significant activity against fungal plant pathogens for the plant". Examiner argues that Applicant claims do not distinguish between a fungicide having no significant activity against fungal plant pathogens versus a fungicide having significant activity against fungal pathogens. Note that USPN '136 teaches the instant elected fungicides: captan and silthiopham. Examiner concludes that captan and silthiopham would have the same activity in the prior art as in instant invention.
- II. Examiner acknowledges Applicant's willingness to file a terminal disclaimer at a later date to overcome obviousness type double patenting rejection over US 20030060371.
- III. Examiner maintains that elected method comprising captan and silthiopham is not allowable.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1616

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
